Examiner's Statement of Reasons for Allowance

The claims are allowed because the prior art of record does not disclose or suggest a security system having a portable wrist wearable timepiece, a transmitter for transmitting a time reset signal that does not include time of day information, processing means for causing the transmitter to transmit the time reset signal at the same time every day, a wireless receiver for receiving the time reset signal and adapted to reset the clock function to the same predetermined time as in the timepiece. (See claims 1 and 14).

Comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

New corrected drawings are required in this application because the drawings submitted 6/7/2001 appear informal. The lines, numbers, letters and blocks are not uniform or plain as required by 37CFR1.84. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings.
